ERGONOMICS AND PERFORMANCE.

KEYLESS SYSTEM

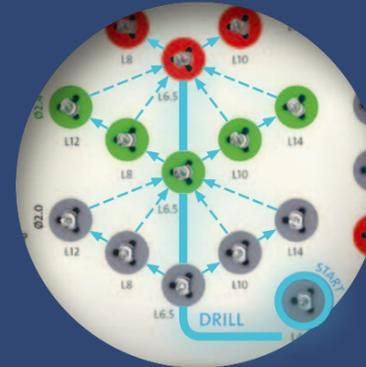

Offering optimal comfort and peace of mind during surgery

- Self-guiding drills and instruments, no wrench, no spoon required
- Design allowing single-handed procedures

Unleash the power of digital.

ACCURACY.

SEAMLESS ROUTE

Intuitive color coding and smart marking for easy identification of the sequence

- Clear organization of instruments
- 1 single kit during surgery

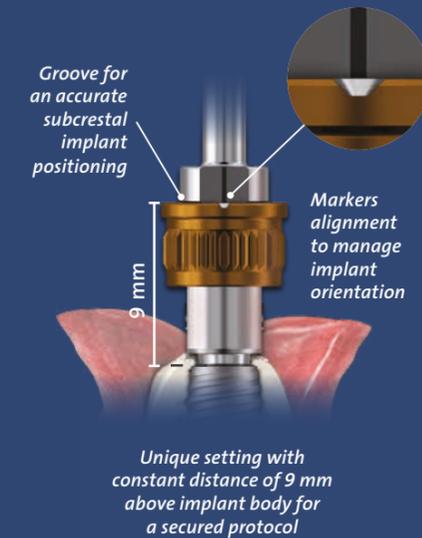

V-SHAPE SLEEVES WITH IMPLANT INDEXATION

- Optimized design for interdental spaces
- Unique placement of the sleeves in the surgical guide.

ACCURATE COMPONENTS ADJUSTMENT FOR HIGH PRECISION GUIDANCE

- Achievement of desired accuracy.
- Markers for appropriate final implant placement in depth and axis.
- Designed to provide comfortable handling.

Unique setting with constant distance of 9 mm above implant body for a secured protocol

FLEXIBILITY.

Enjoy the flexibility of an exhaustive range of 4 KITS to cover main clinical indications with Axiom® implants.

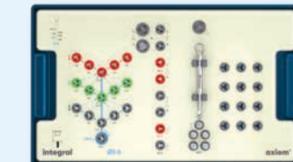

- Axiom® Bone Level and Tissue Level implants
- X3, REG and PX profiles
- Ø3.4 mm to Ø4.6 mm
- 6.5 mm to 14 mm lengths

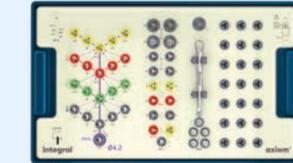

OPTIMIZED KIT CONFIGURATION covering 85% of indications

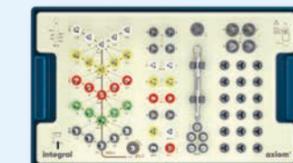

- 1 **Kit Ø3.6 - Ø4.2**
Main clinical situations
 - Axiom® BL Ø3.4 / 4.0 mm
 - Axiom® TL N Ø3.4 / 4.0 mm

- 2 **Kit Ø3.6**
Narrow interdental spaces
 - Axiom® BL Ø3.4 mm

- 3 **Kit Ø4.2**
Intermediate interdental spaces
 - Axiom® BL Ø3.4 / 4.0 mm
 - Axiom® TL N Ø3.4 / 4.0 mm

- 4 **Kit Ø5.0**
Large interdental spaces
 - Axiom® BL Ø3.4 / 4.0 / 4.6 mm
 - Axiom® TL N Ø3.4 / 4.0 mm
 - Axiom® TL R Ø3.4 / 4.0 / 4.6 mm

FREEDOM.

OPEN COMPATIBILITY

- Seamless integration into dental offices and optimized communication with dental labs.
- Freedom for Labside design and printing of surgical guides.
