

# STRAUMANN® **UN!Q** COREBAR

Strength in structure: Titanium Bars for lasting beauty

# RAISE THE BAR: ELEVATE YOUR ZIRCONIA RESTORATIONS

## **DURABILITY, RELIABILITY**

- The CoreBar offers a larger surface area for bonding, ensuring enhanced distribution of forces when compared to traditional ti-base coping.

## **COMFORT:**

- Experience lighter restorations with CoreBar support, providing enhanced comfort for your patients.

## **DESIGN FLEXIBILITY**

- Restore complex mixed implant cases effortlessly by combining any of over 50 implant platforms into the same versatile bar structure.
- Use the CoreBar to restore at abutment level, implant level, or a combination of both.

# STREAMLINE YOUR WORKFLOW

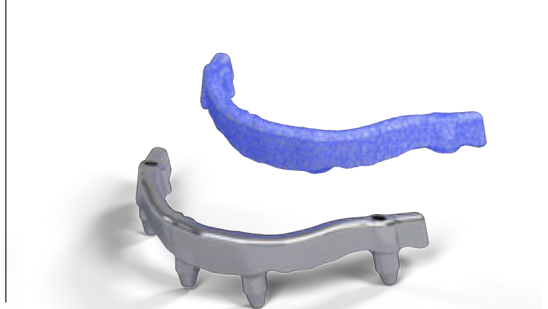

## PICK YOUR PREFERRED OPTION

### CoreBar only

The CoreBar is milled centrally, ensuring precision, while the lab simultaneously produces the zirconia sleeve using the core file, reducing overall turnaround time to just 5 business days.

### CoreBar + Core-File

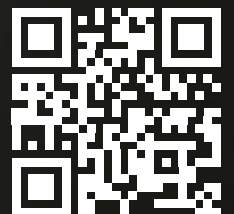

Receive the core file for the bar within 3 business days, allowing your lab to start the production process promptly.

## DESIGN & MANUFACTURING SERVICES

Outsourcing your design work is only a few clicks away. Take advantage of our premium on-demand service via AXS, the online case ordering and management portal.
