

WIN Newsletter April 2021

## DID YOU KNOW?

### *Get to Know the WIN Classroom with Editor Adela Laverick*

*Adela Laverick has recently been named as editor of the WIN Classroom. This means that she will be regularly updating the site with educational resources that she curates especially for WIN members. Adela is starting her tenure by answering a few common questions:*

#### ***In a few words, how would you describe the WIN Classroom?***

I think it's a great educational resource and provides manageable 'bite sized chunks' of topic-based information.

#### ***What can WIN members, whether they are also ITI members or not, gain from the Classroom?***

For non-ITI members, the WIN Classroom lets them access some of the great ITI content, and for ITI members it gives them topic-based suggestions to look up and also introduces them to the wider resources of the ITI Academy.

I suspect that many ITI members do not access the Academy and therefore do not realize what a great facility it is and how much relevant and accessible information is available.

***Which WIN Classroom content qualifies as “must not miss” in your opinion?***

I especially like the Congress Lectures as you get to see and hear the speaker and really engage with the subject: sometimes you can almost feel like you are in the lecture hall with them!

For the more experienced clinicians the Consensus Statements provide high-level, evidence-based and peer-reviewed guidelines in 54 different topics. Presented in easy to read, comprehensive summary documents with the reassurance that the evidence has been read, appraised and discussed by world-leading implant clinicians.
